

# Microsoft Dynamics NAV

## *Editions and Features*

### Business Ready Licensing Options

- **Business Essentials**

For customers who need core financial management and trade functionality with integrated financial, supply chain, business intelligence, and reporting processes that can scale easily as your business grows.

- **Advanced Management**

For growing organizations that need an adaptable solution with complex, highly functional financial, accounting, business intelligence, and reporting functionality. Advanced Management includes all Business Essentials functionality.

- **Advanced Management Enterprise**

A rich set of additional components that extend supply chain management, field service, manufacturing, business intelligence and reporting, and development capabilities. Available to Advanced Management customers only.

- **Additional Components**

Additional components are available to Business Essentials and Advanced Management customers. Each edition provides access to a specific set of additional components that provide a richer set of features.

With assistance from your Microsoft® Certified Partner, you can choose from two editions of preselected (packaged) software functionality available for Microsoft Dynamics® NAV. If you need functionality in addition to what's included in the edition you choose, you have the flexibility to add select components. The tables in this fact sheet compare what's available with the Business Essentials (BE), Advanced Management (AM), and Advanced Management Enterprise editions, as well as add-in components.

### How to Evaluate Editions

#### KEY

 = Feature included.

 = Feature available with Advanced Management Enterprise options.

You **must have** the Advanced Management edition to get features marked Advanced Management Enterprise only.

 = Feature available to add into either edition.

+ = Feature available with Business Essentials only (already included in Advanced Management).
